DEAD SLOW

HORSES ARE UNPREDICTABLE.

PASSING HORSES WIDE AND SLOW CAN PREVENT THE DEATH OF DRIVERS, RIDERS AND HORSES.

#thinkhorsethink15

The British Horse Society

The British Horse Society is a Registered Charity Nos. 210504 and SC038516

It's not just the horse that will suffer when involved in a road accident. The average horse weighs half a tonne and on impact can cause significant damage to a vehicle and the people inside.

PROTECT YOURSELF, PROTECT YOUR CAR, PROTECT HORSES AND RIDERS.

If I see a horse on the road, then I will...

1. Slow down to a maximum of 15mph
2. Be patient; I won't sound my horn or rev my engine
3. Pass the horse wide and slow (2m, at least a cars width)
4. Drive slowly away

Thank you for driving safely around horses.
